WRESTLING ----- SAFETY GUIDELINES

Prior to participating, both the student and parent must read carefully and sign.

When a person is involved in any athletic activity, an injury can occur especially with a sport as strenuous as wrestling. One should be aware the information presented in these safety guidelines is to inform the athlete of proper techniques and inherent dangers involved with wrestling. There is a chance of broken bones, muscle and soft tissue and back injuries, which could lead to some form of paralysis. Not all potential injury possibilities in this sport are listed, but athletes should be aware that fundamentals, coaching and proper safety equipment are important to the safety and enjoyment of the sport.

1. Proper warm-up is essential before strenuous activity takes place. Be aware of the potentially serious injuries if you do not follow correct procedures in stretching, and conditioning.
2. If you wear eyeglasses, contact the coach for proper fitting of safety lenses, appropriate frames that are compatible with wrestling. If you have a bi or tri-focal lens, contact your doctor to provide the best len(s) combination for wrestling.
3. Perform only those skills and techniques as instructed and/or supervised by your coach.
4. Be sure all equipment, especially shoes and head gear, is fitting properly before each day's activity.
5. Athletes should wear the proper safety equipment as designated by the coach.
6. Travel to and from off-campus facilities and practice/competition sites must be in accordance with school procedures.
7. Remove all jewelry and metal hair fasteners and other body adornments as required by rules and regulations for wrestling. Make sure your hair is of proper length meeting the standards of the WIAA.
8. Be aware of your surroundings both home and away including but not limited to surface conditions, obstructions in the proximity to the wrestling mat and safe entrance/egress to/from the wrestling area.
9. Wear outer and under garments appropriate for humidity and temperature.
10. In order to help protect the safety of all squad members, squad members with physically limiting injuries and/or health conditions must inform the coach prior to each day's activity of limiting conditions and participate only to the extent allowed by the coach.
11. Players should hydrate themselves frequently during practice and meets and follow the coaches' direction on hydration prior to and following practices and meets.
12. Notify the coach if you are injured.
13. Practice only when your coach is present.
14. Wrestlers must be aware of potentially dangerous hold and refrain from using them in any and all situations.
15. Do not attempt for the first time any hold or movement without the prior instruction and authorization of the coach. After the coach has determined your ability to apply the hold or movement in the proper manner, you may use the hold or movement at any time the hold or movement is legal or authorized.

SIGNATURES REQUIRED**

16. Wrestling is designed to match two athletes of comparable weight and similar ability. Do not wrestle with someone much lighter than you or much heavier than you without the coaches' approval with knowing the limits on the wrestling permitted in this closely supervised match or practice.
17. Only wrestle opponents who are certified to wrestle you at your approved weight class.
18. Check all equipment and apparatus prior to using them each day with special attention to sanitizing the mat on a daily basis both before and at the conclusion of practice or a match.
19. Make sure the border mats are in place before wrestling in a practice or competition.
20. During a match or tournament, locate the proper warm-up area and allow ample time for stretching and body warm-up before competing.
21. Athletes shall not attempt a new move or techniques without the proper instruction from their coach and the approval of a coach to attempt a new move or technique.
22. Athlete weight control standards must be approved by a doctor and in compliance with WIAA rules and regulations.

The above information has been explained to me and I understand the list of rules, safety regulations/warnings and procedures. I also understand the necessity of using the proper techniques while participating in the wrestling program.
